

DDR Prime™

Essential Oil Cellular Complex

CPTG® Made with Certified Pure
Therapeutic Grade® Essential Oils

Product Description

dōTERRA's DDR Prime™ Essential Oil Cellular Complex is a proprietary blend of CPTG Certified Pure Therapeutic Grade® essential oils combined to support healthy cell biogenesis, function, and renewal. DDR Prime includes the pure aromatic compounds of frankincense, wild orange, lemongrass, thyme, summer savory, clove, and niaouli that have been shown in clinical studies to support cellular health and vitality.*

Concept

As the basic structure of all living things, cells perform three primary functions: they make copies of themselves, they perform a specialized function, and they self-destruct when they are not performing their first two functions correctly. As we age, cellular function can be compromised by poor nutrition, obesity, stress, and exposure to harmful environmental influences such as infectious microorganisms and toxic chemicals. When cellular DNA and other structures are compromised, cells can fail to regenerate, fail to function as programmed, and fail to initiate the normal and healthy process of cellular turnover and renewal.

Cellular Renewal through Apoptosis

Cells have a limited lifespan for performing their many unique and specialized functions in an organism. A normal and natural mechanism for maintaining optimal cell function is a process of cellular renewal called apoptosis in which older cells are eliminated through a process of self-regulated destruction, and new cells are made to replace old cells. Through this process, humans replace the approximate equivalent of their body weight in new cells every year! If cellular apoptosis and regeneration are compromised, sub-optimal health conditions may follow. Staying young and enjoying a long life of vitality begins with healthy cellular function.

Free Radical Molecules and DNA

Free radical molecules are molecules with one or more unpaired electrons that can potentially damage cellular structures including cellular DNA. Found in the nucleus of each cell, DNA stores the instructions for cellular regeneration, function, repair, and apoptosis. When DNA is compromised, cell function can be compromised and unhealthy conditions such as the early onset of degenerative conditions associated with aging can be accelerated.

Antioxidants are molecules with one or more electrons to spare. Antioxidants can neutralize free-radical molecules stopping their destructive cycle of damage to cellular DNA and compromised cellular function. Although our bodies can produce some antioxidants, we primarily depend on dietary sources of antioxidants to neutralize free-radical stress on cells. Eating foods that are rich in natural antioxidants, such as fruits and vegetables, managing stress, and limiting our exposure to external sources of toxic free-radical molecules can help support cellular longevity and vitality.

DDR Prime™ Essential Oil Cellular Complex

DDR Prime Essential Oil Cellular Complex is a proprietary blend of Certified Pure Therapeutic Grade® essential oils that have been shown in clinical studies to help protect cells against free-radical damage while supporting healthy cellular function. The blend includes clove, thyme, and wild orange essential oil, providing powerful antioxidants that help protect cellular DNA from free-radical damage. It also includes essential oils from *Boswellia frereana* (frankincense), lemongrass, summer savory, and niaouli that have been shown to support cellular apoptosis and renewal.*

DDR Prime is available as a pure blend in a 30 ml bottle, or in a liquid capsule format that includes dōTERRA's Nanosomal Lipid Assimilation System for improved bioavailability and digestion.

Primary Benefits

- Supports healthy cell proliferation and lifespan by reducing oxidative stress to DNA and other critical cell structures*
- Supports healthy cellular apoptosis and renewal*

What Makes This Product Unique?

- A proprietary blend of CPTG Certified Pure Therapeutic Grade® essential oils of frankincense, wild orange, lemongrass, thyme, summer savory, clove, and niaouli
- One 8-drop serving (480 mg) has an ORAC 5.0 score of over 5,000
- Available in a 30 ml bottle, or as a liquid capsule with Nanosomal Lipid Delivery System

Who Should Use this Product?

DDR Prime is formulated to be used by adults concerned with cellular regeneration, function, and renewal.

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent disease.

Directions for Use

Oil Blend: Adults, take 8 drops, two (2) times a day with food. Can also be used topically. Use only as directed.

Liquid Capsules: Adults, take 2 liquid caps, two (2) times a day with food.

Mito2Max™ Energy & Stamina Complex*

Product Description

dōTERRA's Mito2Max is a proprietary formula of standardized plant extracts and metabolic cofactors that support healthy cellular energy production. Mito2Max supports optimal mitochondrial function and aerobic capacity, and supports stamina naturally without the use of harmful stimulants. Use Mito2Max as a healthy long-term alternative to caffeinated drinks and supplements for increased energy and vitality.*

Concept

Trillions of cells make up each human body. It is remarkable to reflect on the synergy that occurs between those cells to create life for each of us. The “energy” for life comes from within each of these cells and is known as the mitochondria. As we age our body's mitochondrial function becomes less efficient. This leaves us with lower levels of energy and more toxic cellular exhaust. The sports and activities we enjoyed in our youth can become less enjoyable. Some people try to boost their energy levels through caffeine and other stimulants that can provide a quick buzz but often leave us feeling worse.

Mito2Max

Mito2Max contains dōTERRA's proprietary energy and stamina complex that enhances mitochondrial function, supports stamina and endurance, helps the body adapt more quickly to the diverse activities of life, and helps to increase mental energy.* Acetyl-L-carnitine, a primary ingredient, supports mitochondrial function by helping transport fat into the mitochondria to burn for energy. Ashwagandha root extract, which has been called the “herb of the ages” due to the many uses that it provides, has been used for generations and has been utilized for boosting energy levels, supporting immunity and libido, while also reducing the effects of anxiety, insomnia and stress. Perhaps the greatest quality is its ability to support regeneration of cells from damage caused by molecules known as free radicals. A great antioxidant that can help support the spread of free radicals is *Ginkgo biloba* which

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent disease.

improves blood flow to the brain and acts as an antioxidant. Mito2Max is the perfect way to boost your exogenous antioxidant intake, controlling the spread of free radicals, and maximizing your mitochondrial energy levels each day.

Primary Benefits

- Promotes efficient production of ATP in the mitochondria of cells*
- Enhances stamina and efficient use of oxygen*
- Supports metabolic adaptation for diverse activities, from movie watching to marathon running*
- Improves mental energy*

What Makes This Product Unique?

- Includes high levels of Acetyl-L-Carnitine, Cordyceps, American Ginseng Root Extract, Ginkgo Leaf Extract, Ashwagandha Root Extract, Alpha-Lipoic Acid, Coenzyme Q10 and Quercetin Dihydrate in a proprietary blend
- Made with sodium lauryl sulfate-free vegetable capsules, does not contain milk or wheat products, does not contain ingredients made from animal products

Who Should Use this Product?

Adults who are looking for increased stamina energy and mental acuity.

Directions for Use

Take 2 capsules with morning and evening meals (4 capsules per day)

Cautions

Keep out of reach of children. Pregnant or lactating women and people with known medical conditions should consult a physician before using. Do not use if safety seal is broken or missing. Does not contain milk or wheat products.

Store in a cool, dry place.

Mito2Max

120 Veggie Caps / 30 Day Supply

Item code: 35310001

Consultant price: \$29.50 (25 PV)

Preferred member price: \$31.47

Suggested retail price: \$39.33

Supplement Facts

Serving Size: Four (4) Capsules

Servings per Container: 30

	Amount Per Serving	%Daily Value
Cellular Energy Blend:	1900 mg	**
Acetyl-L-Carnitine HCl		
Cordyceps (<i>Cordyceps sinensis</i> S)		
American Ginseng (<i>Panax quinquefolius</i>) Root Extract.		
Ginkgo (<i>Ginkgo biloba</i>) Leaf Extract		
Ashwagandha (<i>Withania somnifera</i>) Root Extract		
Alpha-Lipoic Acid		
Coenzyme Q10		
Quercetin Dihydrate		

**Daily Value not established.

OTHER INGREDIENTS: Vegetable hypromellose, microcrystalline cellulose, vegetable fatty acid, silica.
