

TerraShield®

Repellent Blend

Product Description

dōTerra's TerraShield Repellent Blend is a proprietary all-natural, super-concentrated blend made up of 15 CPTG Certified Pure Therapeutic Grade™ essential oils that provide a safe and effective deterrent against biting bugs without the use of synthetic chemicals such as DEET.

Concept

Everyone loves being outdoors, but nobody likes becoming lurch for pesky bugs that can ruin your picnic in the woods. Even more dangerous than an itchy bite are the nasty pathogens insects can transmit. To prevent the spread of insect-borne diseases such as Lyme Disease and West Nile Virus, experts recommend using an effective insect repellent. The most common repellents are products that contain DEET, a powerful and potentially toxic chemical that is known to cause negative side-effects, including seizures.

dōTerra's TerraShield Repellent Blend is an all-natural, super-concentrated insect repellent formulated with a proprietary blend of 15 Certified Pure Therapeutic Grade essential oils that have been scientifically shown to repel insects more effectively than other synthetic insect repellents. The 15 essential oils in TerraShield are blended in a base of 100% pure fractionated coconut oil leaving your skin renewed after each application. Just a small amount of super-concentrated TerraShield will provide powerful coverage that lasts up to 6 hours per application. TerraShield's fresh, light citrus smell is wonderfully invigorating and can be used safely by everyone in the family without worry.

Key Ingredients

TerraShield is a proprietary blend of Certified Pure Therapeutic Grade essential oils including Lemon, Eucalyptus (*Eucalyptus citriodora*), Citronella (*Cymbopogon nardus*), and Lemongrass (*Cymbopogon flexuosus*), and 12 other carefully balanced oils blended in a base of 100% pure fractionated coconut oil.

Primary Benefits

- Provides naturally powerful deterrent to biting insects which can carry disease
- Essential oils provide topical antiseptic benefits
- 100% pure fractionated coconut oil nourishes and soothes your skin

What Makes This Product Unique?

- Proprietary blend of 15 Certified Pure Therapeutic Grade essential oils scientifically shown to act as powerful repellents to biting insects*
- 100% natural ingredients; does not contain DEET or other synthetic chemicals
- Fresh, light citrus smell for the whole family; does not smell like an "insect repellent"

Who Should Use This Product?

TerraShield Repellent Blend can be used by anyone seeking a naturally safe, purely effective alternative to smelly, toxic bug sprays and lotions. It can be used safely by the whole family.

Directions for Use

Apply several drops of TerraShield all-natural, super-concentrated repellent blend to exposed skin and openings in clothing before outdoor activity. Reapply every 4 to 6 hours or as needed. May also be used aromatically. Does not contain artificial ingredients, fragrances, or chemicals such as DEET. Will not stain clothing.

Caution

Do not use in eyes, ears, or mouth. Apply sparingly around eyes and ears. Do not use over cuts, wounds, or irritated skin. For external use only—do not use internally. Keep out of reach of children. If pregnant or under a doctor's care, consult your physician.
